

14 April 2014

GRI North East Asia to Australia

To ensure the continued provision of high quality services and sufficient capacity to cater for our customer requirements, Maersk Line is implementing the next phase of our revenue recovery program with effect from 15th of May 2014.

Freight rates from North East Asia (Korea, China, Hong Kong, and Taiwan) to Australia will be increased by USD 500 per TEU and USD 1,000 per FFE.

This rate increase is a reflection of the current unsustainable rate levels that will not allow shipping lines to continue offering their current service portfolio.

For any further information, please kindly contact your local sales representative.

Thank you for your understanding and continued support.
